The screenshot shows the top portion of the NCBI Entrez search page. At the top, there are five buttons: "Search", "List", "Browse", "Queue", and "Clear". Below these, there are two input fields: "DBs" containing "USPAT" and "Default operator" containing "OR". To the right of these fields are two checked checkboxes: "Plurals" and "Highlight all hit terms initially". The main search area contains the query "4 and (e adjl mail or electronic adjl mail)". At the bottom of the image, a row of icons allows switching between different database views: "BRS form", "SAR form", "Image", "Text", and "HTML". The "Text" view is currently selected.
